Sen. Gary Peters (D-MI) - Homeland Security Committee - Amazon & Palantir Trades

Sen. Peters chairs or sits on Homeland Security and Governmental Affairs Committee. PTRs and financial disclosures show trades in Amazon (AWS - ICE cloud hosting) and Palantir (ICE targeting tech). Direct overlap between committee oversight of DHS/ICE budgets and personal investments. Part of broader pattern documented in NBER 'Captain Gains' paper. Source: Senate Clerk database (2022-2025).
